Dear Hiring Manager,

I am applying for the Senior Data Analyst role at Example Ltd. I bring hands-on experience delivering analytics using SQL and Python, and building stakeholder-facing Tableau dashboards.

At ACME, I built ETL workflows and automated reporting, improving data reliability and speeding up decision-making. I am confident I can translate your requirements into actionable insights and scalable reporting.

Thank you for your time and consideration. I would welcome the opportunity to discuss how I can contribute.

Kind regards,
